

Rigging Blocks and Pulleys

Pulleys and rigging blocks for tree work and the general arborist market. TopFlight Trailers & Equipment carries blocks and pulleys. The gear is top-notch and tested for safety, from the aluminum spring block one piece design to the traditional Hobbs aluminum block.

1/2" Blocks & Pulleys

Half-inch blocks & pulleys are ideal for quick redirects, light rigging, slack tending, rescue operations, and more. Wide selection from Petzl, CMI, and others.

5/8" Blocks & Pulleys

Five eighths inch blocks and pulleys are often used for everyday rigging and are compatible with our most popular diameters of tree rigging lines.

Specialty Pulleys

Self-jamming pulleys, swivels, pulleys with built-in swivels, and other specialty pulleys can be found here.

3/4" Blocks & Pulleys

Three quarter inch blocks & pulleys are ideal for heavy rigging and will accept all but the very largest bull ropes. These blocks have great safe working load limits.

1" Blocks & Pulleys

1" Hobbs Block accepts the largest ropes used in the industry and offers incredible strength, durability, and performance. A good investment.
